Subject: meeting to discuss MPCA wild rice sulfate research

Dave and Russ,

Thanks for your time to have a discussion about our research efforts on the Wild Rice and sulfate study. We plan to meet on the UMD campus February 4 from about 11 -2. We'll provide lunch. The basic agenda is to provide you with a short overview of research results and data collected over the past 2+ years, and discussion of possible approaches for our efforts on the state standard. Please let me know if you have any questions and I'll follow up with more about the meeting in a week or so.

Phil
